

## LOS ANGELES COUNTY REGIONAL PARK AND OPEN SPACE DISTRICT

510 S. Vermont Avenue Los Angeles, CA 90020-1975. (213) 738-2981. <http://openspacedistrict.lacounty.info>

June 19, 2012

The Honorable Board of Directors  
County of Los Angeles  
383 Kenneth Hahn Hall of Administration  
500 West Temple Street  
Los Angeles, California 90012

### ADOPTED

REGIONAL PARK AND OPEN SPACE DISTRICT

2-P

June 19, 2012

*Sachi A. Hamai*  
SACHI A. HAMAI  
SECRETARY

Dear Directors:

### **APPROVE 2012 ANNUAL PLAN OF REVENUES AND EXPENDITURES AND ALLOCATE EXCESS FUNDS (ALL DISTRICTS) (3 VOTES)**

#### **SUBJECT**

Approval of the recommended actions will approve the 2012 Annual Plan of Revenues and Expenditures of the Los Angeles County Regional Park and Open Space District. The Plan identifies \$36,382,000 in excess funds available for allocation in Fiscal Year 2012-13.

#### **IT IS RECOMMENDED THAT YOUR BOARD:**

1. Find that the proposed administrative actions are not subject to the California Environmental Quality Act as the actions do not meet the definition of a project according to Sections 15378 (b)(4) (5) of the State of California Environmental Quality Act Guidelines, because the actions are administrative activities for government grants which by their terms do not involve any commitments to any specific projects which may result in a potentially significant physical impact on the environment.
2. Approve the 2012 Plan of Revenues and Expenditures, which identifies \$36,382,000 in available excess funds for allocation in Fiscal Year 2012-13 as shown in Attachment I.

#### **PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION**

Approval of the recommended actions will adopt the Los Angeles County Regional Park and Open Space District (the District) 2012 Plan of Revenues and Expenditures (Plan), as required by the Safe Neighborhood Parks Proposition of 1996 (1996 Proposition), and make an additional \$36,382,000 of

excess funds available for additional capital outlay projects in FY 2012-13.

Section (21), Subsection (j) of the 1996 Proposition requires that, following completion of an independent annual audit of the District, an annual Plan be prepared and approved by your Board prior to the end of the fiscal year. The 1996 Proposition identifies two purposes for the Plan. First, the Plan must demonstrate that the District is managing its revenues and issuing debt in a manner that ensures sufficient funds will be available to finance the \$859,000,000 of capital outlay project expenditures identified in the Safe Neighborhood Parks Propositions of 1992 and 1996 (the 1992 and 1996 Propositions), by the end of Fiscal Year (FY) 2008-09 or beyond FY 2008-09 since it is already past that timeline. Second, the annual Plan must identify to your Board any available excess funds and designate the amount of such excess which, according to a formula prescribed by the 1996 Proposition and a recommendation by an independent financial consultant, may be allocated for additional projects.

## 2012 PLAN OF REVENUES AND EXPENDITURES

The attached Plan of Revenues and Expenditures (Attachment I) is a forecast of the financial activities of the District through FY 2023-24. This Plan demonstrates that sufficient funds will be available to finance the capital outlay project expenditures identified in the 1992 and 1996 Propositions. The Plan also identifies the amount of available excess funds that may be allocated for additional projects in FY 2012-13. In addition, excess funds identified in the Plans of Revenues and Expenditures from years 1999 through 2011 that have not been committed to expenditure also are available for allocation or reallocation in FY 2012-13.

In a related action on today's agenda, the District is recommending that your Board consider and approve the reallocation of prior year excess funds and allocate County excess funds to placeholder grants. Allocation of those funds pursuant to Subsection (b) of Section (24) of the 1996 Proposition will enable the District to ensure that excess funds are available for expenditure by Board action in the coming year.

The Plan reflects actual revenues and expenditures for FY 1993-94 through FY 2010-11, estimated actual revenues and expenditures for FY 2011-12, and projections for FY 2012-13 through FY 2018-19, with projected late payments and penalties through FY 2023-24. The projections for future years are based on a number of assumptions discussed in detail in the Plan, such as:

- Anticipated growth/reduction of assessment revenues;
- Projected future interest rates and their effects on District investment earnings; and
- Anticipated capital outlay project expenditures.

## ALLOCATION OF EXCESS FUNDS

Based on current projections of both revenues and expenditures, the independent financial consultant has determined that new excess funds in the amount of \$36,382,000 will be available for additional capital outlay projects in FY 2012-13. Attachment II shows the allocation of this fund by supervisorial district.

Funds determined to be excess in the 1999 through 2011 Plans of Revenues and Expenditures (Table 2 of Attachment I) are required to be allocated or reallocated in each fiscal year until they are encumbered under Grant Project Agreements. A separate board letter will be submitted for the reallocation of unencumbered or uncommitted funds amounting to \$83,511,595.88 and parity adjustments between cities and county allocations amounting to \$4,348,753.77 before the end of the

current fiscal year.

### **Implementation of Strategic Plan Goals**

The proposed recommendations further the Board approved County Strategic Plan Operational Effectiveness (Goal 1), Fiscal Sustainability (Goal 2), and Integrated Services Delivery (Goal 3), by approving an annual Plan of Revenues and Expenditures, and by allocating funds available for additional capital outlay projects.

### **FISCAL IMPACT/FINANCING**

The District's Plan of Revenues and Expenditures has no impact on the County General Fund. All expenditures of the District will be offset by District revenues through assessments. Funds for new excess funds available for allocation in FY 2012-13 will be coming from the District's Assessment Grant Fund, HB4. Upon Board approval of this action, the Department of Parks and Recreation and the Chief Executive Office will recommend the transfer of \$36,382,000 from the Assessment Grant Fund, HB4 to the Available Excess Funds Fund, HD6. This transfer will be included in the supplemental resolution to the District's 2012-13 Budget.

### **FACTS AND PROVISIONS/LEGAL REQUIREMENTS**

#### **PLAN OF REVENUES AND EXPENDITURES**

Section (21) subsections (i) and (j) of the 1996 Proposition established financial reporting requirements for the District. The District is required to have an independent auditing firm provide an annual audit of District finances as of the end of each fiscal year. The report of that audit is required to be issued by the following January 1 and becomes the basis of the annual Plan of Revenues and Expenditures to be prepared by the District in consultation with an independent financial consultant.

The District is required to prepare a Plan to cover the entire period of the District assessment, which was first levied in FY 1993-94 and was extended by the 1996 Proposition through FY 2018-19. An additional five years, in which delinquent assessment revenues and grant administration expenditures are anticipated, has also been included. The Plan includes actual revenues and expenditures for past years and forecasts of revenues and expenditures for future years. The Plan is required to demonstrate that sufficient funds will be available to finance all capital outlay projects specified in both the 1992 and 1996 Propositions and meet its debt obligations by the end of FY 2008-09 and beyond. The estimated actual expenditures for the current fiscal year and future indicate that the entire authorized amount of \$859,000,000 will not be expended until FY 2018-19.

#### **AVAILABLE EXCESS FUNDS**

Section (24) subsection (b) of the 1996 Proposition allocates Excess Funds according to the following formula:

- 10% of the funds shall be expended for competitive grants; and
- 90% shall be equally distributed between the following categories:
  - o 45% to highest priority regional open space and recreation projects
  - o 45% to regional park and recreation facilities.

The category of regional park and recreation facilities is further equally distributed between

grants to the County and incorporated cities:

- 22.5% to the County of Los Angeles
- 22.5% to incorporated cities

Section (24) subsection (b) further requires that in any fiscal year, Excess Funds awarded but not encumbered into a grant agreement in that fiscal year shall be available for allocation by the Board in the following year.

### **ENVIRONMENTAL DOCUMENTATION**

The proposed administrative actions are not subject to the California Environmental Quality Act (CEQA) in that the actions do not meet the definition of a project according to Sections 15378 (b)(4) (5) of the State CEQA Guidelines. This is because the actions are administrative activities for government grants which by their terms do not involve any commitments to any specific projects that may result in a potentially significant physical impact on the environment.

### **CONTRACTING PROCESS**

As required by the 1996 Proposition, the District prepared the attached Plan with the assistance of an independent financial consultant, the Public Resources Advisory Group (PRAG).

The County of Los Angeles, Treasurer and Tax Collector, Office of Public Finance, obtained Board approval to enter into a Master Agreement for financial advisory services with three firms selected through a Request for Proposals process. One of these firms, PRAG, had previously advised the District regarding its bonding capacity for additional capital improvement projects and was retained for consultation on the 2000 through 2011 Plans of Revenues and Expenditures. Based on past experience, PRAG was retained again under the Treasurer and Tax Collector's Master Agreement for consultation on the 2012 Plan.

### **IMPACT ON CURRENT SERVICES (OR PROJECTS)**

The attached Plan has no impact on current services nor does it authorize specific expenditures. It is merely a forecast of annual District financial activities through the anticipated life of the District.

### **CONCLUSION**

Your Board's approval of the attached Plan of Revenues and Expenditures prior to the end of the current fiscal year will meet the requirements of the 1996 Proposition.

Please instruct the Executive Office-Clerk of the Board to return one adopted copy of this action to the Chief Executive Office, Capital Projects Division, and the Department of Parks and Recreation.

The Honorable Board of Supervisors

6/19/2012

# **PART 1**

## **Report on the Revenue and Expenditure Forecast**

**I. THE SAFE NEIGHBORHOOD PARKS ACTS -  
THE 1992 PROPOSITION A AND THE 1996 PROPOSITION A**

---

**A. THE 1992 PROPOSITION A**

The District was formed and annual assessments are levied pursuant to the California Public Resources Code and the Landscaping and Lighting Act of 1972. On November 3, 1992, the District was established when voters approved the Safe Neighborhood Parks Proposition of 1992 ("1992 Proposition"). The District was established for the preservation of beaches, parks and wetlands; the construction, renovation and improvement of new and existing recreational facilities; and the restoration of rivers, streams and trails in the County. The District's boundaries are coterminous with those of the County, encompassing 4,083 square miles and containing more than 2.3 million parcels. The District is governed by the County of Los Angeles Board of Supervisors with the District's day-to-day operations administered by the County Department of Parks and Recreation. The 1992 Proposition "capped" the assessment at \$9.39 per benefit point per year. The 1992 Proposition A assessment was first levied and collected by the District in Fiscal Year (FY) 1993-1994. The 1992 Proposition allows for assessment collections over a twenty-two year period with the final assessment scheduled for FY 2014-2015.

**B. THE 1996 PROPOSITION A**

On November 6, 1996, voters approved an additional assessment with the passage of the Safe Neighborhood Parks Proposition of 1996 (the "1996 Proposition"). The additional assessment supplemented the existing assessment to fund comparable improvements to those adopted in the 1992 Proposition. However, the 1996 Proposition amended the 1992 assessment "to the extent and with the effect that the portion of any vacant parcel of land, and the vacant portion of any partially improved parcel of land, in excess of two and one-half acres (2.5) shall not be assessed." To clarify any inconsistencies between the two Propositions, the 1996 Proposition further added that:

"It is the intent of this resolution that the method of assessment with respect to both the 1992 Assessment and the Additional Assessment be identical in all respects. Any such discrepancies, differences or variations in the method of assessment shall be resolved in favor of the Engineer's Report with respect to the Additional Assessment."

Finally, the 1996 Proposition "capped" the additional assessment at \$5.07 per benefit point per year. The 1996 Proposition assessment was first levied and collected by the District in FY 1997-1998. The 1996 Proposition A allows for assessment collections over a twenty-two year period with the final assessment scheduled for FY 2018-2019.

## **C. THE ASSESSMENT/PLEDGED REVENUES**

The District's budget and accounting systems have been structured in accordance with the revenue flow and accounting requirements provided by the Propositions. The District's primary revenue source is the assessments that are levied annually on each of the approximately 2.3 million parcels within the District (except for uninhabited agricultural lands, cemeteries, utilities and other exempt parcels). Assessment revenues and interest earnings are distributed in the following manner: a minimum of 80% (but not more than 85%) of the assessments will be used for the payment of debt service on bonds, notes and other obligations issued by the District and for the direct, capitalized costs incurred on approved Projects; 15% of the assessments will be used for the maintenance and servicing of completed Projects; and up to 5% of the assessments will be used to pay for the District's ongoing administrative expenses.

## **D. RATE AND METHOD OF ASSESSMENT/ BENEFIT POINTS**

The rate and method of apportionment for use in levying annual assessments for various categories of property area as set forth in the Engineer's Report for County of Los Angeles Landscaping and Lighting District No. 92-1, was adopted by the Board of Supervisors on March 17, 1992, and modified on June 18, 1996 to include the additional assessment. Pursuant to the Engineer's Report, the level of each assessment is based on the size and use of each parcel and the resulting benefit each parcel will receive from the proposed Projects. The estimation of such benefit is quantified in benefit points. Pursuant to the Proposition, the annual rate of each assessment may not exceed \$9.39 per benefit point for the 1992 Proposition and \$5.07 per benefit point for the 1996 Proposition. The annual assessment for any parcel will consequently equal the annual rate determined by the Board of Supervisors multiplied by the number of benefit points applicable to each parcel. For purposes of this report, it is assumed that assessments will be levied at the maximum allowable annual rates.

The overall level of the District's assessments will increase as parcels are subdivided and vacant property is developed. Properties owned by public agencies, such as cities, the County, the state or the federal government, would not be assessed except when such property is not devoted to public use. Rights-of-way owned by utilities, railroad operating rights-of-way, uninhabited agricultural lands, cemeteries and certain other properties are also exempt from the assessments. Individuals who qualify for the California Property Tax Postponement Program, which generally provides for the postponement of certain payments by individuals 62 years of age or older of property taxes attributable to residential dwellings, may also qualify for postponement of payment of assessments levied by the District. In the event of any allegation of errors of assessment, including circumstances that do not precisely fit the intent of the Propositions, such alleged errors will be reported to a committee appointed by the County Board of Supervisors. The function and authority of this committee will be to recommend corrections or adjustments that are consistent with the concept, intent and parameters of the Propositions and the District's program of levying and collecting the assessments. Unless the proposed corrections and adjustments of the committee are appealed to the County Board of Supervisors, they will be incorporated into the assessment roll.

---

## II. EXISTING BENEFIT POINTS INVENTORY

---

The projection of assessment revenues involve a review and inventory of parcels, use codes, and projection of benefit points within the District. The first step in this process was to determine the current inventory of benefit points.

The benefit point inventory provided by the Auditor-Controller is summarized by assessor use codes in Appendix A. For purposes of the revenue forecast, the assessor use codes for regular parcels are grouped into six major categories: developed residential, developed non-residential, undeveloped residential, undeveloped non-residential, recreational, and institutional land uses.

The information provided by the Auditor-Controller for the tax roll in FY 2011-12 indicates that the cumulative benefit points total 5,580,154 from the 2,342,884 parcels existing in the tax rolls of the Los Angeles County. The cumulative benefit points will produce a revenue total of \$80,689,308.44 for FY 2011-12.

As mentioned in the previous section on Rates and Methods of Assessment, properties owned by public agencies, such as cities, the County, the state or the federal government, would not be assessed except when such property is not devoted to public use. Rights-of-way owned by utilities, railroad operating rights-of-way, uninhabited agricultural lands, cemeteries, common areas, sliver parcels, and certain other properties are also exempt from the assessments. The District does not submit for enrollment assessments that are less than \$0.25; this bypass limit is equal to the Auditor-Controller's per-parcel billing charge for assessment enrollment. Additionally, the District does not submit for enrollment assessments for parcels for which the information needed to calculate benefit points cannot be determined by the Department of Public Works Flood Control Database. Parcels with missing information are initially identified by the Auditor-Controller in a Benefit Points Exception Report; most of these exceptions fall into two categories: 1) invalid or missing use codes and 2) missing land acreage. Notwithstanding, District staff have developed and implemented a system to procure the missing information for the exceptions, thereby allowing for benefit-point calculations and enrollment submission for the majority of the exceptions (many of the parcels for which information is not procured are no longer in existence). These aggressive efforts of District staff have considerably reduced the cumulative number of exceptions.

---

### **III. PROJECTION OF BENEFIT POINT GROWTH AND ASSUMPTIONS**

---

#### **A. BASE BENEFIT POINTS INVENTORY**

The existing inventory of 5,580,154 benefit points for FY 2011-12 is used in the projections of future growth for the purposes of calculating projected assessment revenues. Total assessment revenues were derived by multiplying the assessment rates times the benefit point projection.

#### **B. BENEFIT POINT GROWTH ASSUMPTIONS**

The overall health of the real estate market has stabilized some but remains tenuous, due to the slow economic recovery locally and the continuing threats of further global financial turmoil. Over the past few years, the average benefit point growth rate, especially for residential properties, has declined. As a result, the formula for forecasting future benefit point growth for the 2012 Plan of Revenues and Expenditures adopted a conservative approach to project future changes in benefit points reflecting both short- and long-term trends. Using data on actual benefit points since FY 1996-97, the consultant, Public Resources Advisory Group (PRAG), calculated the projected future benefit point growth as the lesser of the average growth rate over the long-term and the average growth rate over the past three years. Using such methodology, the assumed benefit point growth rate is 0.220% per year for residential and 0.180% per year for commercial/industrial properties.

#### **C. ASSESSMENT REVENUE ASSUMPTIONS**

Based on information provided by the Los Angeles County Auditor-Controller, the District adjusted the assessment assumptions to account for appeals, parcel enrollment losses, delinquencies, and County collection/administrative fees. These assumptions are summarized below:

1. Appeals Rate. The proposition allows for adjustments to assessments based on inaccurate acreage, inaccurate assessor use codes, conservancy properties, etc. Based on actual appeals data for FY 2010-11, the appeals rate was equal to 0.158% of the gross assessment levy and this rate is applied for each subsequent year. Assessment appeals are shown as adjustments to the tax roll. Where adjustments cannot be included in the normal system generated tax billing, they will be included in an "override" file that will be run in the following tax year.
2. Parcel Enrollment Losses. The report adjusted the assessment assumptions to account for losses which occur between the Auditor-Controller's submittal of direct assessments to the County and the reconciliation of parcels which were actually enrolled on the secured tax roll. Based on the existing Auditor-Controller program calculation of benefit points and the actual amounts enrolled for FY 2011-12, the revenue loss was minimal, only .0060% or \$4,838.61.

3. Delinquency Assumptions. For purposes of this report, due to the economic recession affecting the real estate market, the delinquency rate based on the FY 2010/11 tax ledgers of 3.094% has been used. In the revenue projections the report has included the standard 10% redemption penalty fee as well as an average annual delinquency interest rate of 9%. The report has used the County's existing assumptions regarding delinquency recovery rates of 91% over 5 years based on a "sliding scale" of 45% recovery for Year 1, 22% for Year 2, 11% for Year 3, 9% for Year 4, and 4% for Year 5. The actual County delinquency interest rate is 1.5% per month (or 18% annualized). However, the 9% delinquency interest rate assumption is premised on straight-line collections through the FY. Thus, delinquency interest rates are 9% for collections of past due assessments of the first year, 18% for the second year, 27% for the third year, 36% for the fourth year and 45% for the fifth year. Note that the report has not made any adjustments in revenue projections for the Property Tax Postponement Program, the 5-Year Payment Plan, or for any revenues generated by County foreclosure actions. The result of these conservative assumptions was to assure that the report's cash flow projection was non-speculative in nature.
4. Auditor-Controller Collection and Administrative Fees. The Auditor-Controller charges the District for services from the Systems Division and another from the Tax Division to put the District assessments in the tax rolls. Additional accounting and auditing charges are also billed by the Auditor-Controller for various services rendered to the District. All of these services are borne entirely by the District administration fund and does not affect collection of revenues.

## **D. INTEREST REVENUE ASSUMPTIONS**

District funds earn interest at the rates paid in the County of Los Angeles Treasurer's Pooled Investments. Revenue from interest on District funds is projected for future years by applying lower interest rates to projected fund balances. Due to the uncertainty of the economy, and also using lower interest rates, the cumulative total amount of Available Excess Funds through FY 2023-24 (see Table 2) is \$424,708 million. This amount is approximately \$4,087 million less than the cumulative total Excess Funds projected in the 2011 Plan of Revenues and Expenditures. The District expended all remaining bond proceeds in FY 2004-05. As a result, projects have been solely funded by assessment revenues since FY 2005-06. As the District pays down the balance of the projects funded by the propositions, the assessment revenue project funds is decreased, hence interest earnings from the reduced principal is also reduced.

## IV. PROJECT COSTS AND PHASING ASSUMPTIONS

The update to the expenditure program consisted of three separate steps. The first step was to update the program with actual expenditures for prior years. The second step consisted of updating the expenditure program with estimated actual expenditures for the current fiscal year. Finally, the third step involved projecting the remaining expenditures for the life of the program.

The forecast for remaining project expenditures were further adjusted to take into account current encumbrances of approximately \$31,505,491 for such expenditures as of May 11, 2012. The current encumbrance reflects funds set aside to cover the committed grants for outside agencies which have not yet been spent. For the purposes of the projection, the amount of future encumbrances is assumed to remain constant as long as the remaining expenditures are higher than that amount and to decline to match remaining expenditures thereafter. The effective result is equivalent to an assumption that project expenditures are accelerated slightly, and the approach minimizes the possibility of underfunding the unpaid grant balances in any year. Table 1 below shows historical actual expenditures thru FY 2010-2011, estimated actual for FY 2011-2012 and forecasted future expenditures. The table shows that bond proceeds were phased out in FY 2004-2005. It also shows that some grants are projected to be spent through FY 2016-17.

Table 1  
Actual and Projected Expenditures from 1993-94 to 2016-17 (in \$ 1000)

---

## V. EXCESS FUNDS

---

As the capital funding requirements are satisfied, allocations for grants in furtherance of the purposes of the Propositions can be made from “excess” revenues<sup>1</sup>. Under the 1996 Proposition, the County’s independent financial consultant shall annually determine what portion of the excess revenues from the prior year can be made available for other projects in the next fiscal year without impairing the District’s ability to finance all of its planned capital outlay projects or its ability to issue or repay bonds, notes or indebtedness. According to the 1996 Proposition, 80% of the “available excess” shall be made available to the Board for its use on other projects.

The 1996 Proposition, in Section 21 subsection (j), requires that the District consult with an independent financial consultant in preparation of each year’s Plan of Revenues and Expenditures. For the 1997 baseline Plan of Revenues and Expenditures, a consulting team, Taussig Associates, was retained by means of a Board-authorized solicitation of proposals, and the same team was employed for the preparation of the 1998 and 1999 Plans. The District, subsequently through a contract with the County of Los Angeles Treasurer and Tax Collector, engaged the services of Public Resources Advisory Group (PRAG). This group served as independent financial consultant for the years 2000 through 2011. This year, the District’s consulting services were also provided by the same group.

The 1996 Proposition, in Section 24 (a) subsection (j), also requires the independent financial consultant to determine what amount of excess funds, if any, from the prior year’s audited financial statements are available for allocation. The resulting excess funds may be made available in the next fiscal year without impairing the District’s ability to service its debt and without impairing the District’s ability to finance all \$859,000,000 in capital outlay projects. The resulting excess funds called “Available Excess”, as determined each year by the independent financial consultant, are then available for use by the District to fund additional eligible capital outlay projects.

Under both sections previously mentioned the District’s annual Plan of Revenues and Expenditures was required to demonstrate that funds would be available to finance all capital outlay projects by the end of FY 2008-09. That fiscal year has passed and unspent projects remain. The total balance of unspent funds, including uncommitted funds, as of the end of FY 2010/11 was \$68,365,548.02. In the current year’s plan, the amount of remaining grant funds including unallocated competitive funds were projected to be spent by FY 2016/17.

The total Available Excess Funds for the 2012 Plan is \$36,382,000 compared to last year’s projection of \$31,436,000 for this year. The increase is due to several factors: 1) an \$11,668,000 decrease in combined pay-as-you-go capital outlays in FY2010/11 and FY2011/12, which has been deferred to later years, 2) better than expected growth in benefit points in comparison to projections (0.172% residential and 1.231% commercial/industrial vs. declines in the conservative projections), and 3) higher than expected interest earnings in FY2010/11 after final adjustments became available in that fiscal year (actual \$3,503,000 vs. projected \$1,784,000).

<sup>1</sup>“Excess” is defined in Section 24(a) of the 1996 Proposition as the excess of (1) assessment revenues collected pursuant to this resolution and the 1992 Order plus investment earnings thereon, and any other revenues of the District (excluding bond proceeds or any other evidences of indebtedness, but including collections of delinquent assessments and interest and penalties thereon), all cumulative to the date of the independent audit, over (2) amounts expended for capital outlay (excluding capital outlay funded with bond proceeds or other borrowed funds), and amounts expended, or allocated for maintenance and servicing, administrative costs and debt-service, all cumulative to the date of the independent audit.

Table 2 below depicts past allocations and projected allocations of the “available excess” for grants, assuming that District expenditures in future years are as projected. If District expenditures lag behind projections, as they have consistently in the past, then additional allocations of excess funds will be recommended next fiscal year. Interest earnings on the excess funds are not shown separately in this table. They revert to the assessment grant fund and form part of the base in the determination of available excess for the following year.

Source: Revenue and Expenditure Forecast Model \*\*\*

\* Debt service requirement for given Fiscal Year includes April-payment

plus funds encumbered to make October payment in following Fiscal Year

\*\* 1997 and 2005A par amounts include proceeds escrowed for refunding of

1994 and 1997 bond issues, respectively

\*\*\* Revenues for expenditures in excess of proposition specified \$859 million

improvements projected in Excess Funds Account
